

KOMS 17 LTD

MANAGEMENT SYSTEMS CONSULTANCY

As we begin the third month of the new decade, **KOMS 17 Ltd** welcomes you to our fourth newsletter. In this issue, we would like to highlight the importance of professional and experienced consultants. No matter which market sector you are in, your consultants should provide your company with specialised and skilled knowledge.

Ask yourself; 'do our consultants bring the best knowledge and professional service for the best price to our company?' If your answer is 'no', then you could potentially be wasting your money and your time. **KOMS 17** prides itself on bringing quality and professional consultancy to companies worldwide, for a low, fixed price.

Unlike many other consultants, **KOMS 17** can guarantee 100% commitment and professionalism to your company. With our ability to work worldwide, we are able to provide companies across the globe, from all market sectors, with professional, quality consultancy. Because we only work with UKAS and ANAB (North American) accredited certification bodies, this provides credibility to our clients' own customer base.

Our team of consultants is committed to helping our clients' progress and achieve outstanding results through the application of effective standards and management best practice. Whatever the assignment, we believe in working with our clients as true partners.

If you would like to book a free meeting with one of our consultants to discuss using **KOMS 17** for your consultancy or for ISO 27001, you can contact us today on 0044(+0)1278 434481. If you would like to learn more about ISO 27001, **KOMS 17** offer training courses and seminars, both in-house and public, which cover the foundations of the ISO standards and how they can be implemented into your own company, email or telephone us for further information. We look forward to hearing from you.

Powerful Solutions

"Excellent and high quality service."

CONSULTANCY

Based in the South West of England, with offices in Cyprus and Kuwait and with business partners across the globe, **KOMS 17** is the UK leading provider of Management Systems Consultancy Services. With years of experience in consultancy, auditing, Business Continuity Management (BCM) ISO 27001 (Information Security Management Systems) and ISO 9001 (Quality Management), we have extensive experience and can bring the best of our skills and knowledge to your company.

KOMS 17's team of Consultants are Management Systems professionals with experience in designing, implementing and maintaining management systems across a wide range of professional and industrial sectors. Not only have we successfully implemented systems with clients from the medical, government, financial, consultancy services, IT, data handling and processing, data storage, mechanical and electrical engineering sectors, but unlike many other Management Consultants, **KOMS 17** tailor makes an ISMS to your exact specifications; whether you want the ISM System to cover your entire business or just specific areas.

Some consultants may promise to bring experience of consultancy and knowledge of ISO 27001 to your company, but often these consultants have little or knowledge of appropriate consulting or indeed about ISO standards. You needn't take a risk when choosing your consultants, because with **KOMS 17** we guarantee a professional, quality service for all our clients.

You can contact us to learn more information about our **consultancy services**. Please visit our website at www.koms17.com or email info@koms17.com
